PROFESSIONAL SUMMARY

Experienced IT professional with more than **8+** years in total, including over **6+** years in system administration, technical support, and infrastructure management. I have a strong history of providing reliable IT solutions and keeping systems secure and efficient. Currently, I am expanding my knowledge in cloud computing and DevOps by learning hands-on with AWS Cloud, Python, Terraform, Git, and GitHub. I am looking to use these growing skills in a progressive organization that values innovation and digital change.
